Swedish SOLAS workshop

The Swedish Secretariat for Environmental Earth System Sciences (SSEESS) and SOLAS are organizing a workshop between 18-19 November 2013 in Stockholm focussing on the broad spectrum of SOLAS science. The workshop is for both senior and young researchers from Swedish institutions/universities. Key scientific leaders of SOLAS and representatives from Swedish funding agencies will also take part in the event.

Click [**here**](#) for more information and please register (no fees) before the 18th October and circulate this information to your swedish colleagues.

SOLAS Summer School 2013

The 6th [SOLAS Summer School](#) took place in Xiamen, China 23 August - 2 September 2013 and brought together 69 doctoral students and early-career researchers from 52 institutions in 22 countries. In a combination of lectures and practical workshops 15 international scientists taught skills and knowledge in many disciplines needed to understand the nature of ocean-atmosphere interactions.

We thank all students, lecturers, organizers and sponsors for their hard work and commitment

towards the school.

SOLAS reading

- Please circulate information about the new book on [`Ocean-Atmosphere Interactions of Gases and Particles`](#) by P.S. Liss et al. Production was supported and funded by the EU COST Action 735 and coordinated by SOLAS.
 - In case you missed our latest [SOLAS Newsletter](#) it is available on [our website](#).

Opportunities

- Proposals are invited for the 2013 Calls of the [NERC International Opportunities Fund](#) regarding Pump-Priming grants and the Pump-Priming Plus grants. Deadline is 17 October 2013.
 - A grant opportunity for FY2014 on [Marine sensor and other advanced observing technologies transition project](#) by the [U.S. IOOS Program and the NOAA Ocean Acidification Program](#) is available. Deadline for letters of intent is 01 November 2013.
 - [The Schmidt Ocean Institute](#) and [Marine Science & Technology Foundation](#) have opened calls for Expressions of Interest in collaborative oceanographic research and technology development. Deadline is 06 December 2013.
 - [Wendy Schmidt Ocean Health XPRIZE competition to `Improve Our Understanding of Ocean Acidification`](#) challenges teams of engineers, scientists and innovators from all over the world to create pH sensor technology that will affordably, accurately and efficiently measure ocean chemistry from its shallowest waters to its deepest depths.
