Surface Ocean-Lower Atmosphere Study

solas
2012

Open
Science
Conference

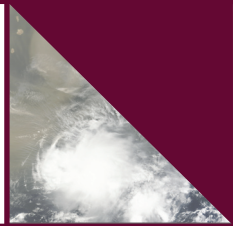

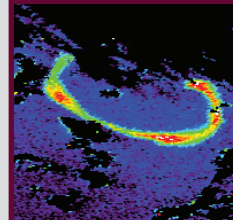

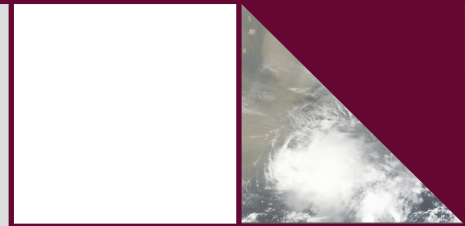

7th – 10th May 2012
Washington State, USA

- Local organiser: Trish Quinn (NOAA/PMEL, USA)
- Conference organiser: SOLAS International Project Office (IFM-GEOMAR, Germany)

Keep up to date. Join the SOLAS mailing list at www.solas-int.org/subscribe

Participate in this international conference to learn about new research, present your recent findings, share your knowledge, and develop future research directions and collaborations.

The conference will highlight global research advances contributing to the SOLAS Mid-Term Strategy themes from the sea ice biogeochemistry of the polar regions to air-sea gas fluxes in the tropics.

The venue is less than 150km from Seattle set on the sunny slopes of the Cascade mountains.
