

# SOLAS Mentorship Programme 2026–2027 – Call for Mentors

The SOLAS Early Career Scientist Committee is pleased to announce the call for mentors for the first edition of the SOLAS Mentorship Programme, running from May 2026 to April 2027. This 12-month pilot, aligned with the SOLAS 3.0 Science Plan, aims to foster real exchange across career stages and to support the professional growth of Early Career Scientists in our community.

Mentors will work with small, thematic groups of mentees through online group meetings over the year, email conversations, and participation in selected skill-focused activities. More details of the programme structure, objectives, and commitments are available in the Terms of Reference [LINK](#).

We are particularly keen to hear from mentors who are engaged in SOLAS science, leadership, or community activities, and who reflect the diversity of regions, disciplines, and career paths across our network. The expected time commitment is around **4–6 hours per four-month term**, so that participation remains meaningful but manageable alongside other responsibilities.

If you are interested in taking part in this new community initiative, please submit an expression of interest via this online form.
